

ISHWIINDER REALTOR

Practical experience. Clear communication. Lasting relationships.

A CLIENT-FIRST PERSPECTIVE

With more than three years of practical real-estate experience, Ishwiinder supports property clients in India with an emphasis on understanding requirements, explaining the available information and coordinating purposeful site visits.

EDUCATION IN CANADA

His educational background in the Toronto area includes:

- Bachelor's in Business and Society, majoring in Economics and Statistics
- Postgraduate studies in Financial Services Compliance Administration
- Immigration Consultant Graduate Certificate, Humber College

A BUSINESS BUILT AROUND PEOPLE

Before focusing on Indian real estate, he built and expanded Wisdom Immigration, helping clients move to Canada and settle. That experience strengthened his approach to complex processes, individual priorities and long-term client relationships.

FROM CANADA-FOCUSED SERVICES TO INDIAN REAL ESTATE

Following pandemic disruption and changing Canada–India relations, he shifted his business focus to real estate in India. Today, he brings that cross-border client perspective to conversations with local and overseas Indian clients.

HOW HE WORKS

Listen to the requirement. Compare the evidence. Clarify what remains unverified. Arrange a suitable next step without pressure or promises of guaranteed returns.
